Special Report dealing with the transportation system in the USSR.

General Sibert has requested that we prepare a special report dealing with the transportation system in the USSR. He is interested in relative matters comparing the present situation with respect to such data as daily tonnage, mileage of track, numbers of cars, etc., with the pre-war situation.

There has been no time set for the completion of such a report, and I am sure that General Sibert does not expect anything until after we obtain additional personnel.
